

WORKSHOP

WHAT AGENDA FOR THE NEXT EUROPEAN PARLIAMENT ?

Organisers: **Renaud Dehousse** | President, European University Institute (EUI)

Room Cattier, Fondation Universitaire, 11 Rue d'Egmont - 1000 Bruxelles

19 MARCH 2019

■ INTRODUCTION

European Parliament elections in May 2019 come at a critical time in the evolution of the EU: these will be the first elections after the anticipated departure of the UK and at a time when divergence on many issues characterise member state relations. Wider global developments weigh heavily on Europe with the return of hard geopolitics and efforts to undermine the global multilateral order. The EUI wants to highlight the issues that are at the heart of the political agenda at this juncture. A number of EP Elections Policy Papers were produced on all of the major issues and will be presented and discussed at this conference. The programme is structured in thematic clusters - with an MEP in each panel where possible - where each paper will be presented in no more than five minutes, followed by open discussions with the audience.
