

## Workshop

# Global order, international organisations and organisational options

**13 - 14 October 2022**

Sala del Capitolo - Badia Fiesolana, Via dei Roccettini 9 - San Domenico di Fiesole (Fiesole, Florence)

Scientific organiser:

**Stephanie Hofmann** | European University Institute

## Introduction

Academics and pundits alike are currently debating the nature and future of the global order in which we live, with a striking focus on global and regional international organisations. These organisations are the sites of competition, rivalries, and cooperation as well as friendships, coalitions of the willing and strategic alliances – both on the individual, bureaucratic and government levels.

This workshop brings together researchers of all career stages to discuss global ordering processes. Particular attention will be given to papers that address issues such as international (global and regional) organisations, European/regional foreign policies, regional integration, diplomatic practices and power transition/rivalries.

## Programme

### 13 October

09.30 - 10.00 ***Welcome and introductions***

**Stephanie Hofmann** | European University Institute
