

# QUEERNESS BETWEEN COLONIALISM AND MIGRATION

## What does queerness have to do with colonialism and migration?

For LGBT+ History Month Italia the Queer and Feminist Studies Working Group facilitates a conversation between researchers, activists of LGBTQ+ associations, and the public to reflect on the links between queer subjectivities, the history of Italian colonialism, and the migration of queer people to Italy. Starting from recent research and looking at some historical sources, we will explore the intersections between these themes, and understand the connections between past and present. We invite everybody to bring their voices to this debate so we can embark on this endeavour together!

The event will be in Italian.

### Introduction

Riccardo Bulgarelli (European University Institute)  
Chiara Lacroix (European University Institute)

### Libri Liberi (Florence)

### Organised by
